

# Learning Happens Everywhere

The Educational Studies program at Carroll University

CARROLL  
UNIVERSITY

The skills of an educator aren't limited to the classroom. Many teachers work outside of a traditional school setting. In fact, the role of an educator can be critical to business, social work, healthcare, spiritual life, governance and many other work settings.

In our Educational Studies program, you'll examine the role of education in modern society and develop the knowledge and skills needed to teach across a variety of non-traditional settings.

## Career Opportunities

A major or minor in Educational Studies can help you build the foundation for a flexible career with a variety of options such as:

- Social work
- Corporate training
- Human resources
- Camp directors
- Community programming
- Marketing
- Early childhood teacher

## Double It Up

With our flexible scheduling, Educational Studies can easily be paired with another major or minor, such as:

- Art
- Business administration
- Criminal justice
- Public health
- Environmental science
- Music therapy
- Management and leadership
- Sociology
- Nursing
- Psychology
- Theatre arts

## A Stepping Stone To Graduate School

Educational Studies helps prepare you for graduate studies in programs such as:

- School psychology
- Occupational therapy
- Social work
- Physical therapy

Note that this major does not lead to teacher certification.
