

CARROLL UNIVERSITY

All newly admitted and readmitted full time undergraduate students are required to provide proof of certain immunizations. Prior to arrival on campus, all new and readmitted students need to complete the required Health History Form and Immunization section in the Mediat patient portal <https://carrollu.mediatconnect.com/login.aspx>. Please select the “Forms” icon and complete your Student Health Center Health History Form. When complete, select submit. Next, please select “Immunization” and select “Enter Dates” from the drop down menu. Complete the section and select submit. After you have entered your vaccine dates, don't forget to also upload a copy of your vaccine record under the upload tab so that the information can be verified. You will not be considered compliant with the immunization requirements until you have completed this step.

Two doses of Measles, Mumps, Rubella (MMR) vaccine are required. In lieu of immunization, evidence of laboratory tests showing immunity to Measles, Mumps, and Rubella is acceptable.

If immunization information is not on file, the Dean of Students and the Registrar will be notified and a hold will be placed on your registration for the subsequent semester.

If you would like to complete an Immunization Waiver Form, the form can be found under the Forms section of the Mediat Patient Portal. You will need to complete, sign and then upload the form. Then in the Immunization section, under “Enter Dates” at the bottom of the page, you can enter the date the Waiver Form was signed and uploaded. If you have any questions please call 262-524-7233 or e-mail healthcenter@carrollu.edu. Please note that students who are incompletely vaccinated may be excluded from class if an outbreak of a vaccine preventable disease occurs on campus.

Health Sciences, Nursing, Physical Therapy, Occupational Therapy, and Physician Assistant students may be required by their department or program to receive additional immunizations or documentation. Please contact your program for specific requirements.

Student Health Center FAQs

1. Where is the Student Health Center?

The Student Health Center is in a green house at 215 Wright Street (on the corner of Wright and Charles).

2. Do I need an appointment to be seen in the Student Health Center?

The nurse practitioners usually see patients on a **walk-in**, first come/first serve basis, with the exception of Wednesday afternoons, which are reserved for well physicals and pap smears by appointment only.

3. Can I be seen in the Student Health Center even if I have insurance through my parents, and not through the insurance plan offered by the University?

Yes, the nurse practitioners will see any Carroll student. If you do not have the insurance offered by the University, any charges can be paid using Carroll Cash or can be billed to the student account. The NP can give students a receipt with the billing codes that you can submit to your insurance carrier to request reimbursement. There is a \$20 charge for most urgent care visits for illness or injury, and \$30 charge for physical exams. Lab tests, TB tests, medications, and vaccines are additional charges. Students who are insured under the WPS student insurance plan offered by the University are not billed for covered services provided in the Student Health Center.

4. I have a sore throat, and I'm worried I have strep or mono. I think I have a bladder infection. I have a rash I would like checked. What if I need an antibiotic for my infection? I need to have my annual exam and pap smear. I need a physical for employment, sports, student teaching, or before doing my nursing clinical. I need a Medical Health Statement form completed for my Cross Cultural Experience. Can the Student Health Center help me?

Yes! The nurse practitioners can see students for many common illnesses and concerns. They can do rapid strep tests, mono tests, urine tests, and many more tests right in the Student Health Center. Other specimens can be collected in the Student Health Center, and then sent to Waukesha Memorial Hospital Lab for testing. If needed, the NP can give you some prescription medication at the time of your visit. Most antibiotics are \$10 if purchased from the Health Center. The NP can also write a prescription for medications that can be filled at a local pharmacy. The NP can do physical exams including sports physicals, required nursing and education/student teaching physicals, pap smears as well as complete Medical Health Statement Forms needed for your Cross Cultural Experience. You need to schedule an appointment for a physical; they are done on Wednesday afternoons by appointment only.

5. I need a TB (Tuberculosis) skin test, drug screen, immune titer, or flu vaccine that is required for my program. Can this be done in the Student Health Center?

Yes, TB skin tests can be done in the Student Health Center, the cost is \$15, which can be billed to your student account or paid using Carroll Cash. Ten panel drug screens can be done for \$25 with results given the same day.

In addition, the Student Health Center can give many vaccines including meningitis, tetanus, hepatitis A, hepatitis B, influenza (flu), MMR (measles, mumps, rubella), and typhoid. If you do not have the insurance offered by the University, the cost of the vaccine plus a \$10 injection fee will be billed to your student account. However, the NP can give you a receipt with the billing codes that you can submit to your insurance carrier to request reimbursement.

6. I get allergy shots. Can I get my allergy shots in the Student Health Center?

Because we don't have an MD on site, and allergy shots entail the injection of a serum that the patient is allergic to, there can sometimes be serious allergic reactions after a shot, we no longer administer allergy shots at the Student Health Center. We can refer you to a local allergist where the shuttle could take you to get your allergy shots.

For more information about the Student Health Center, please call (262) 524-7233, email healthcenter@carrollu.edu, or visit https://my.carrollu.edu/ICS/Departments/Health_Services/
