Course Description:
The main objective is for the student to apply the academic and clinical knowledge used in this program to develop a senior project. This course is designed to showcase the student's ever evolving knowledge in sonography. The senior project consists of two parts: an in-depth written paper and oral presentation to one's peers. Preparation for the sonography boards and professional review: The main objective is to provide the student with the opportunity to improve test-taking skills in preparation for the examination of the American Registry for Diagnostic Medical Sonography. Job-hunting, interview skills and resume writing will provide the student with skills needed when seeking employment. An overview of professional behavior and standards will be reviewed at this time.
