

CARROLL UNIVERSITY

All newly admitted and readmitted full-time undergraduate students are required to provide proof of certain immunizations. Two doses of Measles, Mumps, Rubella (MMR) vaccine are required. The MMR vaccine is usually given in childhood, first dose between 12-15 months and second dose between 4-6 years. In lieu of immunization, evidence of laboratory tests showing immunity to Measles, Mumps, and Rubella is acceptable.

The COVID-19 vaccine is highly recommended but not required. Please note that students that are fully vaccinated for COVID-19 are not required to have mandatory COVID-19 testing prior to move in or bi-weekly COVID testing during the academic year. Our electronic health record has an interface with the Wisconsin Immunization Registry, so if you have received your vaccines in Wisconsin, you do not need to upload your vaccine dates or records. However, students who were vaccinated outside of Wisconsin must enter their immunization dates and upload their immunization record in the patient portal.

After you are registered for classes, and prior to arrival on campus, all new and readmitted students need to complete the required Health History Form and Immunization section in the Mediat patient portal <https://carrollu.medicatconnect.com/login.aspx>. Please select the “Forms” icon and complete your Student Health Center Health History Form. When complete, select submit. Next, if you have received the required MMR vaccines or the COVID vaccine **outside of Wisconsin**, please select “Immunization” and select “Enter Dates” from the drop-down menu. Complete the section and select submit. After you have entered your vaccine dates, you also need to upload a copy of your vaccine record and/or your COVID-19 vaccination card under the upload tab so that the information can be verified. You will not be considered compliant with the immunization requirements until you have completed this step.

If the required MMR immunization information is not on file, the Dean of Students and the Registrar will be notified, and a hold will be placed on your registration for the subsequent semester.

If you would like to complete an Immunization Waiver Form, the form can be found under the Forms section of the Mediat Patient Portal. You will need to complete, sign and then upload the form. Then in the Immunization section, under “Enter Dates” at the bottom of the page, you can enter the date the Waiver Form was signed and uploaded. If you have any questions please call 262-524-7233 or e-mail healthcenter@carrollu.edu. Please note that students who are incompletely vaccinated may be excluded from class if an outbreak of a vaccine preventable disease occurs on campus.

Health Sciences, Nursing, Physical Therapy, Occupational Therapy, and Physician Assistant students may be required by their department or program to receive additional immunizations or documentation. Please contact your program for specific requirements.
