

Travel Health Resources

On Campus Travel Resources:

Carroll University Student Health Center

215 Wright Street

Phone: (262) 524-7233

Fax: (262) 650-4897

The Health Center NPs can help you prepare to study abroad or head off on your next CCE trip. We can sign the required Medical Health Statement form, review CDC recommendations for your travel destination, and administer some vaccines recommended for travel. We also can write prescriptions for anti-malaria medication, and for medication to treat traveler's diarrhea. There is a \$20 charge for a travel consult, which is billed to your student account or can be paid using Carroll Cash. Vaccine prices vary, but the Health Center bills the cost of the vaccine plus a \$10 administration fee. The Health Center staff will give you a receipt to submit to your private insurance for reimbursement for services covered by your plan. If you have the WPS student insurance plan offered through the University, some travel vaccines and consults are covered if administered by the Student Health Center.

Off Campus Travel Resources:
